

**Geometry R
Student Expectations
2022-2023
Mrs. Dolan**

Geometry R is designed to prepare you for the Common Core Geometry Regents that you will take in June 2023. Geometry R will give you a firm foundation of the basic geometry concepts necessary to be successful to pass the Regents. It is a fast paced course so take good notes, do your homework, never be afraid to ask questions, and do not wait to get help! I am looking forward to a fun and rewarding year.

Classroom Expectations

In class, you are expected to follow all of the rules in the CCHS Code of Conduct. In addition, you are expected to:

- Be in your seat ready to work when the bell rings.
- Be prepared everyday with materials, an open mind, and a positive attitude ☺
- Be present and engage in daily lessons and activities.
- Ask questions and seek help when needed.
- Respect everyone and their belongings.
- Have fun and learn something!

****Reminder:** As part of the code of conduct, you are expected to keep cell phones and all other electronics off and away during class. Any devices in sight during class will be placed in Dolan's Daycare at the front of the room. Your device will be taken care of free of charge while you work!

You are in control of your phone, don't let it control you!

Class Materials

You will be provided with a unit packet and additional handouts for each unit we cover this year. In addition to bringing this to class each day, please also have each of the following:

- Chromebook
- Pens/pencils
- Compass – I suggest a Bullseye or Slide n’ Measure compass. This can be ordered online. *Please purchase as soon as possible* as we will use this in the 1st unit.
- Binder/folder
- Highlighters (optional)

Grading Policy

Your grade will be calculated based on performance in the following areas:

- Daily practice – may be collected or visually checked
- Assignments - assignments given multiple days to complete will be accepted one day late with a 25% deduction; no credit given after one day late
- Quizzes – Several quizzes will be given throughout the unit.
- Tests – Unit test will be given at the culmination of each unit.

A total points system will be used to calculate your grade. Each assignment/assessment will be assigned a point value that is part of the total point value in a marking period. The weight of the assignment on the final grade is based on the number of points available for a given assignment/assessment.

Each assignment/assessment is your opportunity to earn points toward a better grade!

Any questions or concerns do not hesitate to contact me at school:
