BENEFIT BULLETIN

Use Quest Lab Card Select
to **Save \$20**
for most lab tests

OU Health participates in the Quest Lab Card Select program. By using Quest Diagnostics Lab Card Select program for your lab tests ordered by your doctor, you reduce your co-pay cost from \$25 to \$5. **A \$20 savings to you!** The labcard.com website does not list OU Health benefits. To review the Plan's Coverage Summary, go to www.ouhealth.org "Quick Links" (bottom of Home page) and select "Benefits-at-a-Glance".

Here's how the program works:

1. At a physician's office or a Lab Card collection site, show your healthcare card. Verbally request your doctor use the Quest Lab Card Program. The Quest Lab Card Program is optional, if you do not use the Quest Lab Card Program, your standard benefits for outpatient laboratory testing will apply, and your co-pay cost will be \$25.
2. If your physician collects specimens in their office, they can continue to do so. After the collection is complete, your physician must clearly mark Quest Lab Card on the paperwork and call 1-800-646-7788 to request a Lab Card pick up.
3. If your physician does not collect specimens in his/her office, you may find an approved collection site at LabCard.com or by calling 1-800-646-7788. Site information, including locations, Lab Card hours and any special instructions are updated daily, so please visit the website or call 1-800-646-7788 before any visit. Quest Diagnostics performs the tests and sends the results to your doctor (usually the next day).
4. **YOU MUST** notify your doctor collecting the specimens, or the Quest Lab facility, that your Health Plan participates in the Quest Lab Card program -- to be sure you are responsible for only a \$5 co-pay!

You can save up to \$20 each for most lab tests!
